

A cost-effective screening procedure to identify high risk, work-related attitudes and behaviors.

About the CBI

The CBI is a contemporary integrity test—a cost effective screening procedure for identifying job applicants whose behavior, attitudes, and work related values are likely to interfere with their success as employees. The CBI consists of an objective questionnaire with 140 true/false items that can be completed by the job applicant in 10 to 15 minutes.

How the CBI Works

- The job applicant completes the true/false questionnaire in 10 –15 minutes.
- The perfect integrity survey solution for every business.
- Saves time and money.

Available Online

The Online version of the CBI automatically produces an extensive report that includes behavioral interview questions linked to incorrect answers.

An Administrator's Manual and Technical Manual are available printed or as PDF downloads
